

Spell Checker

Spell Checker

With the new version of 4D Write 6.5, you will now be able to use the spellchecker that comes with MS Office to spell check your 4D Write documents.

To do this, you must go into the 4D Write 6.5 preferences and select the spellchecker and dictionary to use. The steps below will walk you through setting up the spellchecker.

1. Open a 4D Write 6.5 document.
2. From the File menu, select File --> Preferences
3. Once the preference window is up, click on the spellchecker tab at the top.
4. On the spellchecker page you will noticed two boxes. The first box contains the path to the spellchecker and the second box contains the path to the dictionary.
5. On the first box, click on the browse button. A window will appear asking for you to locate the spellchecker. If you are using MS Office 97/98, follow the appropriate path below to select the spellchecker that applies to the machine you are using.

Mac : <Your Mac HDD>:MS Office 98:Shared Applications:Proofing Tools:MS Spelling 2

Win : C:\Program Files\Common Files\Microsoft Shared\Proof\Mssp232.dll

6. On the second box, click on the browse button. A window will appear asking for you to locate the dictionary. If you are using MS Office 97/98, follow the appropriate path below to select the dictionary that applies to the machine you are using.

Mac : <Your Mac HDD>:MS Office 98:Shared Applications:Proofing Tools:English Dictionary

Win : C:\Program Files\Common Files\Microsoft Shared\Proof\Mssp2_en.lex
